JAYESH NEHETE

B.Tech Computer Engineering Student | *Aspiring Full Stack Developer*

📧 jayeshnehete126@email.com | 📞 +91 9340071421 | GitHub: github.com/jayeshnehete126 | LinkedIn: linkedin.com/in/jayesh-nehete-2396b8290 | Portfolio: jayeshnehete126.github.io/My-portfolio

CAREER OBJECTIVE

Motivated first-year B.Tech Computer Engineering student at MIT Academy of Engineering, Pune, with a strong foundation in programming and web development. Passionate about building real-world projects and continuously improving problem-solving skills. Eager to grow as a Full Stack Developer and contribute to impactful technology solutions.

EDUCATION

B.Tech in Computer Engineering | *MIT Academy of Engineering, Pune* | 2025 – Present

- Currently in first year; building strong fundamentals in programming, data structures, and computer systems.

TECHNICAL SKILLS

Languages & Web: HTML5, C Programming, C++, Java (Basics), Python

Tools & Platforms: GitHub, GitHub Pages, VS Code, Linux

Concepts: Responsive Web Design, Data Science Fundamentals, Binary/Gray Code Conversion

PROJECTS

Personal Portfolio Website | *HTML5, CSS3 | GitHub Pages* | 2025

- Designed and developed a fully responsive personal portfolio website from scratch using HTML5 and CSS3.
- Included sections for About, Skills, Projects, Certifications, and Contact for a complete professional presence.
- Deployed live using GitHub Pages — accessible at jayeshnehete126.github.io/My-portfolio.
- Demonstrates knowledge of responsive layouts, CSS styling, and web deployment workflows.

Gray Code Converter | *C Programming* | 2025

- Developed a C program to convert Binary numbers to Gray Code, demonstrating understanding of bitwise operations.
- Implemented clean logic with input validation to handle various binary input scenarios.
- Strengthened understanding of number systems, logic gates, and low-level programming concepts.

Linux Library Management System | *Linux Shell Scripting* | 2025

- Built a command-line based library record management system using Linux shell scripting.
- Features include adding, searching, and managing book records stored in files.
- Demonstrates practical knowledge of Linux file system, shell commands, and system-level programming.

Essentials of Data Science | *Python | Data Science Fundamentals* | 2025

- Completed a structured course/assignment on Data Science fundamentals covering core concepts and techniques.
- Explored topics including data handling, basic statistics, and Python for data analysis.

CERTIFICATIONS

- Python Essentials Certification — Cisco Networking Academy
- IBM SkillsBuild Completion Certificate — IBM
- NASSCOM Certificate — NASSCOM
- TechSprint Certificate — MIT Academy of Engineering

GOALS & INTERESTS

- Aspiring to become a Full Stack Developer with expertise in both front-end and back-end technologies.
- Keen interest in Artificial Intelligence and exploring how AI can solve real-world problems.
- Committed to continuous learning, open-source contribution, and improving algorithmic problem-solving skills.
